With an all metal construction, all axes movement and ability to hold a wide range of devices, MAX³ is more versatile, more durable and more flexible.

- Will support cameras and or displays up to three pounds
- Passed shock and vibration testing to MIL STD 810 G
- Display extension allows for use of passenger side visor (if extension is not used the visor will remain in the stowed position)
- Display hole pattern supports VESA and AMPS mounting
- All axes range of motion in X axis (left/right), Y axis (front/back) and Z axis (up/down) allows you to position the camera and display at any angle
- Encapsulated ball design offers theft deterrence
